

Subdivision Application Checklist

1. **Signed Land Use Application Form and Pre-Application Notes**

2. **Narrative**

A complete and detailed narrative description of the proposed development describing:

- The proposed development that describes existing site conditions, existing buildings, public facilities and services, presence of wetlands, steep slopes and other natural features.
- A detailed description of the proposed development, including a description of any phasing (including the time, acreage, number of residential units, amount of area for nonresidential use, open space, and development of utilities and public facilities for each phase), proposed uses, number and type of residential units, allocation and ownership of all lots, tracts, streets, and public improvements and the structure of any homeowner's association.
- Timely Provision of Public Services and Facilities. The applicant shall explain in detail how and when each of the following public services or facilities is, or will be, adequate to serve the proposed development by the time construction begins:
 - Water
 - Sanitary sewer
 - Storm sewer and stormwater drainage
 - Parks and recreation
 - Traffic and transportation
 - Schools
 - Fire and police services
- Where adequate capacity for any of these public facilities and services is not demonstrated to be currently available, the applicant shall describe how adequate capacity in these services and facilities will be financed and constructed before recording of the plat
- Overall density of the subdivision and the density by dwelling type for each

3. **Review Criteria**

A response addressing each section of Chapter 152 and any other applicable criteria.

4. **Site Plan**

A detailed site development plan showing:

- The location and dimensions of lots, streets, pedestrian ways, transit stops, common areas, building envelopes and setbacks.
- All existing and proposed utilities and improvements including sanitary sewer, stormwater and water facilities.
- Total impervious surface created (including streets, sidewalks, etc.)
- An indication of existing and proposed land uses for the site.

5. ___ **A Subdivision Connectivity Analysis**

An analysis that describes the existing and proposed vehicular, bicycle and pedestrian connections between the proposed subdivision and existing or planned land uses on adjacent properties.

6. ___ **A Traffic/Transportation Plan**

The applicant’s traffic/transportation information shall include two elements:

- A detailed site circulation plan showing proposed vehicular, bicycle and pedestrian access points and connections to the existing system, circulation patterns and connectivity to existing rights-of-way or adjacent tracts, parking and loading areas and any other transportation facilities in relation to the features illustrated on the site plan.
- A traffic impact study prepared by a qualified professional transportation engineer, licensed in the state of Oregon, that assesses the traffic impacts of the proposed development on the existing transportation system and analyzes the adequacy of the proposed internal transportation network to handle the anticipated traffic and the adequacy of the existing system to accommodate the traffic from the proposed development. The city engineer may waive any of the foregoing requirements if the city engineer determines that the requirement is unnecessary in the particular case.

7. ___ **Natural Features Plan, Topography and Preliminary Grading and Drainage Plan**

The applicant shall submit a map illustrating all of the natural features and hazards on the subject property and where practicable, within one hundred fifty feet of the property’s boundary. The map shall also illustrate the approximate grade of the site before and after development. Illustrated features must include all proposed streets, the location and estimated volumes of all cuts and fills and all stormwater management features. The plan shall identify the location of drainage patterns and courses on the site within 150 feet of the property boundary.

8. ___ **Tree Removal and Mitigation Plan**

9. ___ **Preliminary Storm Calculations**

10. ___ **Erosion and Sediment Control Plan**

A plan submitted concurrently with the preliminary plat application, including the measure that will be implemented throughout construction of the subdivision to control erosion and sedimentation.

11. ___ **CC&R's**
Drafts of the proposed covenants, conditions and restrictions (CC&Rs), maintenance agreements, homeowner association agreements, dedications, deeds easement, or reservations of open spaces not dedicated to the city.

12. ___ **A Current Preliminary Title Report for the Subject Property**

13. ___ **Mailing Labels for Owners within 300 Feet for the Subject Site**
The names and addresses of property owners within 300 feet of the subject site indicated on the most recent property tax rolls. This information can be provided by a title company.

14. ___ **Copies**
Two (2) copies of all information, reports and drawings (full sized and 8.5" by 11") pertaining to this application.

15. ___ **Electronic Version of All Application Materials**

16. ___ **All Required Application Fees**
